From Carol Bult: Hi Mary,

I can't even begin to tell you how special this summer has been for me in terms of cycling up Mt. Washington. Last year I was part of Lili's support team and had never even thought about riding up the rockpile. But Lili is quite an inspiration and an awesome coach and she worked with me all last winter and spring to get me ready. Sometimes I can't even believe I was able to make it up the mountain four times this summer! Every ride was different and special in its own way. And equally as memorable was meeting cyclists from all over and experiencing the support and encouragement of other riders and volunteers and Mt. Washington event staff. I'm still amazed (and very thankful!) that you and your staff would get up at the crack of dawn on a Saturday morning for the practice rides and the make up rides. I hope everyone there knows how much it is appreciated!

Here is the link to the photos and Lili and I took on September 1. Let me know if you have any problems with it.

See you next year, Mary!

Cheers,

Carol
